PROGRESS REPORTS

The Board of School Trustees accepts its responsibility to lead in the identification and development of broad goals and specific objectives to be accomplished by the school district and to make realistic adjustments in these targets after the adoption of the actual operating budget. In return, the Board will expect the Superintendent to apply all appropriate means to provide for continuous and candid reports of the progress by staff in the pursuit of these goals and objectives for which reliable measurement indicators have been established.

The purpose of these progress reports shall be to provide the Board with information needed for making on-going policy and planning decisions and to keep the public informed about school needs and about actual results being obtained from the public support of school programs.

Progress reports should be presented in plain English and be supported as necessary by meaningful graphics in order that the significance of all information may be easily understood by the lay public. These reports should be accompanied by administrative recommendations for Board consideration and action.

Formerly Policy AG
