SUPPORT SERVICES GOALS

Support services are essential to the successful operation of a school system. Management of auxiliary operations is, therefore, an important responsibility of the administrative staff.

In order to provide support services that are truly supportive of the educational program, the Board of School Trustees establishes these goals:

1. To provide a physical environment for teaching and learning that is safe and pleasant for students, staff, and public.
2. To provide safe transportation for students to and from school and nutritious meals for students while at school.
3. To provide support services resources and assistance with maximum responsiveness.

Adoption Date: April 27, 1977
