CUSTODIAL SERVICES

The major responsibility for providing a high standard of facility cleanliness rests with the custodial staff. Under the guidance of the building principal, appropriate attention to the daily needs of care, cleanliness, safety, and upkeep will prevent the deterioration of facilities and minimize the need for frequent renovation and major repair.

The custodial staff is directly responsible to the building principal during the work year of the principal. New custodians shall be assigned by the Director of Personnel according to building needs. Transfers and changes in assignment are accomplished by the Director of Personnel upon the recommendation of the building principal or other appropriate administrative staff.

Adoption Date: April 27, 1977
