**FACILITIES PLANNING**

It is the responsibility of the Board of School Trustees to develop and implement plans for the school corporation that will meet the educational needs of Vigo County, both today and in the future. The Board will develop long-range building plans to meet those requirements. The objectives of such plans are:

1. To improve the educational environment for all students.
2. To modernize facilities in phases with first priority being given to the remodeling or replacement of substandard facilities.

Planning for new buildings and/or remodeling of existing buildings shall be in accordance with the grade organizational patterns adopted by the Board.
