

VIGO COUNTY SCHOOL CORPORATION
TERRE HAUTE, INDIANA

File: GCLA

PROFESSIONAL DEVELOPMENT POLICY

All Vigo County School Corporation certificated staff are expected to be involved in continuing professional growth, including professional in-service activities and professional conferences/meetings. However, it is recognized that the highest priority task of the certificated staff is providing instruction, leadership, and supervision in the classroom or other assignment. Every effort must be made to minimize absences by utilizing time for staff development activities outside the student day. The number of absences for professional development is subject to the accompanying regulations and budget limitations of the school corporation, recognizing that equitable staff involvement is intended. All requests for professional development shall comply with regulations and guidelines as developed by the superintendent and approved by the Board of School Trustees.
