CURRICULUM DEVELOPMENT

The Board recognizes that in order to foster the role of education in a democratic society and to ensure equal opportunity to students of different personality characteristics and viewpoints, it cannot permit the curriculum to remain static. The Board deems it essential that the school system continually develop and modify its curriculum to meet the changing needs and diversity of our citizenry and to assure the full, rounded, and continuing development of the individual personality in our community. While the Board retains its full rights and responsibilities under the laws of Indiana with regard to the determination of the curriculum, it authorizes the administration to organize advisory committees, which may be comprised of students, parents, teachers, and administrators, to periodically review the curriculum and advise the Board on curriculum changes. Committees involving community participation shall receive Board approval prior to appointment.
