CURRICULUM RESEARCH

In order to evaluate all investigations and research involving human subjects, the Vigo County School Corporation requires that all research designs must be presented by the principal investigator to the Instructional Research Committee.

The Instructional Research Committee is charged with the task of screening all proposals to assure that:

1. The proposals relate to investigations not currently being conducted or having been conducted within the district.
2. The research objectives are set forth in clear and measurable terms.
3. A plan for appraising the attainment of the objectives is to be included within the proposal.

Adoption Date: November 10, 1976; Revised: October 13, 1982
