**REQUEST FOR REVIEW OF EDUCATIONAL RESOURCES**

The Board of School Trustees reaffirms the **Library Bill of Rights** of the American Library Association and states that the responsibility of a school is:

to provide materials that will enrich the student as an individual and support the curriculum, taking into consideration the individual needs and the varied interests, abilities, socio-economic backgrounds, and maturity levels of the students served;

to provide materials that will stimulate growth in knowledge and develop literary, cultural, and aesthetic appreciation and ethical standards;

to provide materials which accurately reflect all religious, social, political, and ethnic groups and their contribution to our American heritage, as well as to a knowledge and appreciation of world history and culture; and

to provide comprehensive collections of instructional materials which, when selected in compliance with basic selection principles, can be defended on the basis of their appropriateness for the users of the media center.

The Board of School Trustees recognizes the right of any resident to express concerns about the resources in the school district's educational program. The procedures detailed in the accompanying regulations shall be followed whenever a complaint is filed.

Adoption Date: May 23, 1988
